SKILLS

Technical Skills	Solution Design, Enterprise Integrations, Salesforce Security, Apex, LWC, SOQL, SOSL, Experience Cloud
Professional Skills	Problem Solving, Analytical Thinking, Stakeholder Collaboration, Adaptability, Ownership, Accountability

EXPERIENCE

Salesforce Developer / Senior Salesforce Developer Persistent Systems Ltd. Project: IDFC Bank	Oct 2020 - Oct 2022 <i>Hyderabad, Telangana</i>
--	--

- Developed Salesforce solutions using Apex, Aura Components, SOQL, and Integrations for an end-to-end digital loan journey platform for IDFC First Bank, supporting the complete lifecycle from loan application initiation to processing and approval.
- Worked on Salesforce design patterns and integration patterns to improve solution scalability, maintainability, and performance.
- Worked closely with stakeholders to analyze requirements, develop solutions, and ensure timely delivery.
- Provided production support by troubleshooting critical issues, identifying root causes, and delivering appropriate fixes.

Salesforce Consultant Absyz Software Consulting Pvt. Ltd Project: Abu Dhabi Global Market	Oct 2022 - Current <i>Abu Dhabi, United Arab Emirates</i>
--	--

- Worked on ORS(Online Registry Solution), a unified platform for end-to-end management of business entities.
- Leading the solution design, development, and delivery of scalable Salesforce solutions using Apex, LWC, Experience Cloud, and Salesforce platform capabilities.
- Worked extensively on Salesforce security enhancements, addressing security vulnerabilities, implementing secure coding practices, and improving application security.
- Worked closely with business stakeholders to gather requirements, define solutions, plan sprints, and ensure successful and timely delivery.
- Led a team of 10+ members in migrating legacy visualforce site to Experience Cloud using LWC, driving solution design, reusable component development, and successful delivery without any issues.
